

# Library Workshop

---

How to Find Scholarly Articles

# Workshop Objectives

---

At the completion of this workshop students will:

- Define what it means to be a peer reviewed article.
- Identify characteristics of peer reviewed articles.
- Locate peer reviewed, scholarly articles using library databases.

# What does peer reviewed mean?

---

A peer reviewed article is one that has been reviewed by experts in the field to evaluate the originality, quality of research, and clarity of presentation of the research in the article.

# Characteristics of a Scholarly Article

Original research for the scholarly community. Articles with original research will typically have sections in the articles with participants, methods, discussion, and results.

Articles written by experts in the field.

For example, AMY EXPERT Impressive University, Professor PERCY CITATION  
Notable College, Associate Professor

Sources always cited.

Footnotes and bibliographies make a scholarly article and ensures accuracy.

Language specific to discipline.

There are no unnecessary pictures or advertisements.

Published monthly or quarterly.

# Why should I use a peer reviewed article?

---

- In most cases, you'll want to use articles from scholarly journals to support your arguments because these are written by experts, include references you can consult and verify the information, and have been carefully reviewed by other experts in the field for accuracy, credibility, and reliability.

## Where to find peer reviewed articles

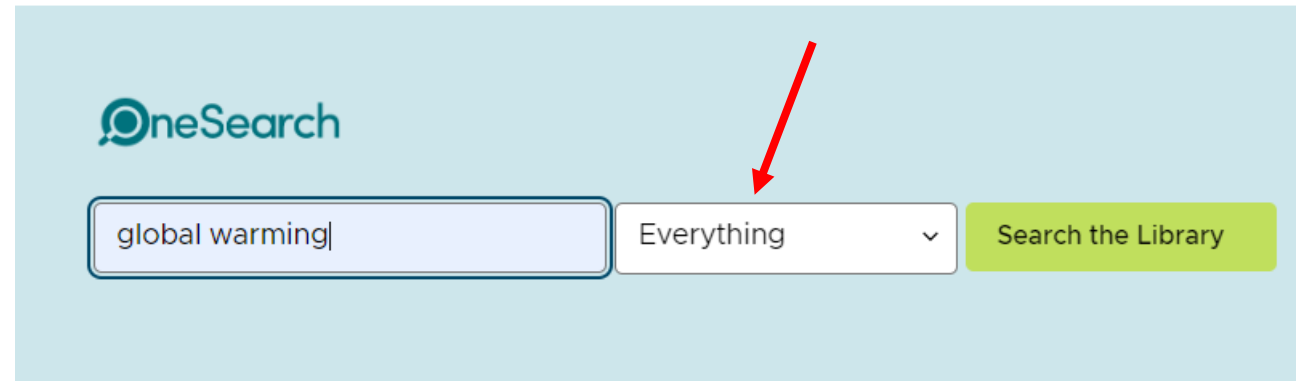

Scholarly, or peer reviewed articles, are found through subscription databases available to current students through the library.

Using the library's web site, there are different avenues to find these articles:

- 1. OneSearch:** OneSearch is the library's search system that can be used to locate a variety of sources, including Peer Reviewed articles.
- 2. Specific Databases:** Peer reviewed articles can also be located by searching specific databases directly.

# OneSearch

- The OneSearch box can be found directly on the library's homepage.
- When you enter your topic or search terms, you can search 'Everything.'
- The search results will include peer reviewed articles.

# Types of Sources

When using **One Search**, your search results will have a variety of source types:

- Reference/Background Sources
- Books (textbooks, fiction, non-fiction)
- Newspaper Articles
- Magazine Articles
- Scholarly/Peer Reviewed Articles
- Videos

The next slides will show you how to filter, or limit, to peer reviewed articles.

# Identifying Source Types

- Once you have a list of results, it's important to be able to identify the types of sources you're seeing.
- **One Search** indicates if the source is a book, article, video, etc.
- Once you locate a source you'd like to read/view, click on the title or the 'Available Online' link.

# Filter your Results

- Once you have a list of results, there are multiple filters that can be applied to the results on the left side of the screen.
- You can select the 'Peer-reviewed Journals' filter.

Filter your results

## Off-campus Access

- If you're off-campus, you can log in using your student email address to view the article.
- The library's electronic resources can be accessed 24/7 on or off-campus by using your RCCD student email.

## MORENO VALLEY COLLEGE

If you are currently enrolled at Moreno Valley College or you are a Moreno Valley College employee, you can access this electronic resource remotely from off-campus.

Please enter your **RCCD Email Address** below to sign on:

RCCD Email Address:

Sign On

### EXAMPLES:

jane.doe@student.rccd.edu  
jonathan.gomez@mvc.edu

NOTE: Students are assigned an RCCD email address ending in @student.rccd.edu when they apply to the College. If you do not know your student email address you can login to [WebAdvisor](#) or [MyPortal](#) to find it.

Faculty and staff can sign on using their RCCD issued email account.

Once you  
log in, you'll  
see the full  
text of the  
article.

Abstract

[Translate](#) ▾

Between about 1998 and 2012, a time that coincided with political negotiations for prev surface of Earth seemed hardly to warm. This phenomenon, often termed the 'global wa in the public mind about how well anthropogenic climate change and natural variability

You'll often times have the option to view the article as a pdf document. Viewing the pdf document is helpful for seeing page numbers to use when citing your sources.

# Search Techniques

---

- **Boolean Operators**

- **AND:** Connecting search terms using AND will give you FEWER results. It's good for narrowing down your search results. Ex: children and technology
- **OR:** Connecting search terms using OR will give you MORE results. It's good for searching for similar terms. Ex: (covid-19 or coronavirus)
- **Phrase searching:** To search multiple terms as a phrase, place the search terms in quotes. Ex: "work from home"

# **Where to find peer reviewed articles**

In addition to using One Search to find articles, you can search specific databases.

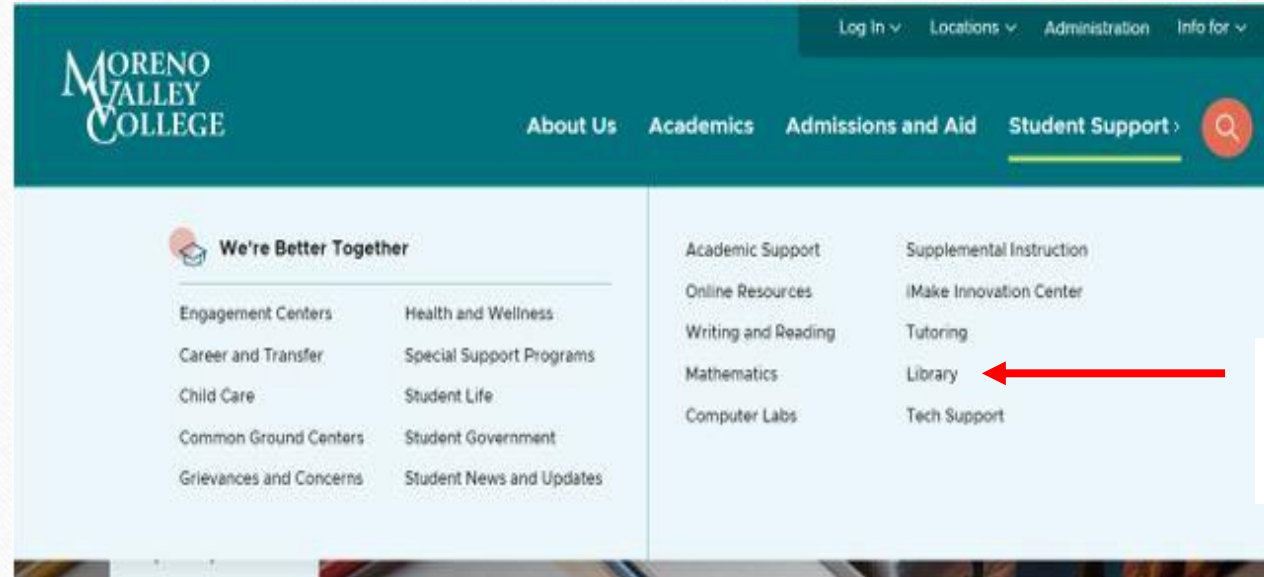

All of the library's databases are available 24/7 off campus.

The databases can be found on the library's A-Z page.

<https://www.mvc.edu/student-support/library/index.php>

# To find the list of databases:

Under Student  
Support, click on  
Library

## Accessing the Database A-Z list

---

- The library subscribes to several databases that contain a variety of sources, including Peer Reviewed articles.
- To access the list of databases:  
<https://www.mvc.edu/student-support/library/index.php>

### Databases and Technology

- **Electronic Databases A-Z**  
- **Access Databases Remotely**
- **Computers and Internet Access**

# Choosing a Database

- This is the list of all the databases the library subscribes to.
- You can read the description and choose the database that's best for your class and topic.
- The most common database to start with is Academic Search Complete.

Academic Search Complete is a multi-subject database that is very useful for a variety of topics.

## Databases A-Z

[A](#) | [B](#) | [C](#) | [D](#) | [E](#) | [F](#) | [G](#) | [H](#) | [I](#) | [J](#) | [K](#) | [L](#) | [M](#) | [N](#) | [O](#) | [P](#) | [Q](#) | [R](#) | [S](#) | [T](#) | [U](#) | [V](#) | [W-Z](#)

### » [Academic Search Complete](#)

Provides full text for journals, magazines and scholarly/peer-reviewed titles.

### » [Academic Search Premier \(S\)](#)

Provides full text for journals, magazines and scholarly/peer-reviewed titles.

### » [All Ebsco Databases](#) (July - June)

Access to EBSCO Databases.

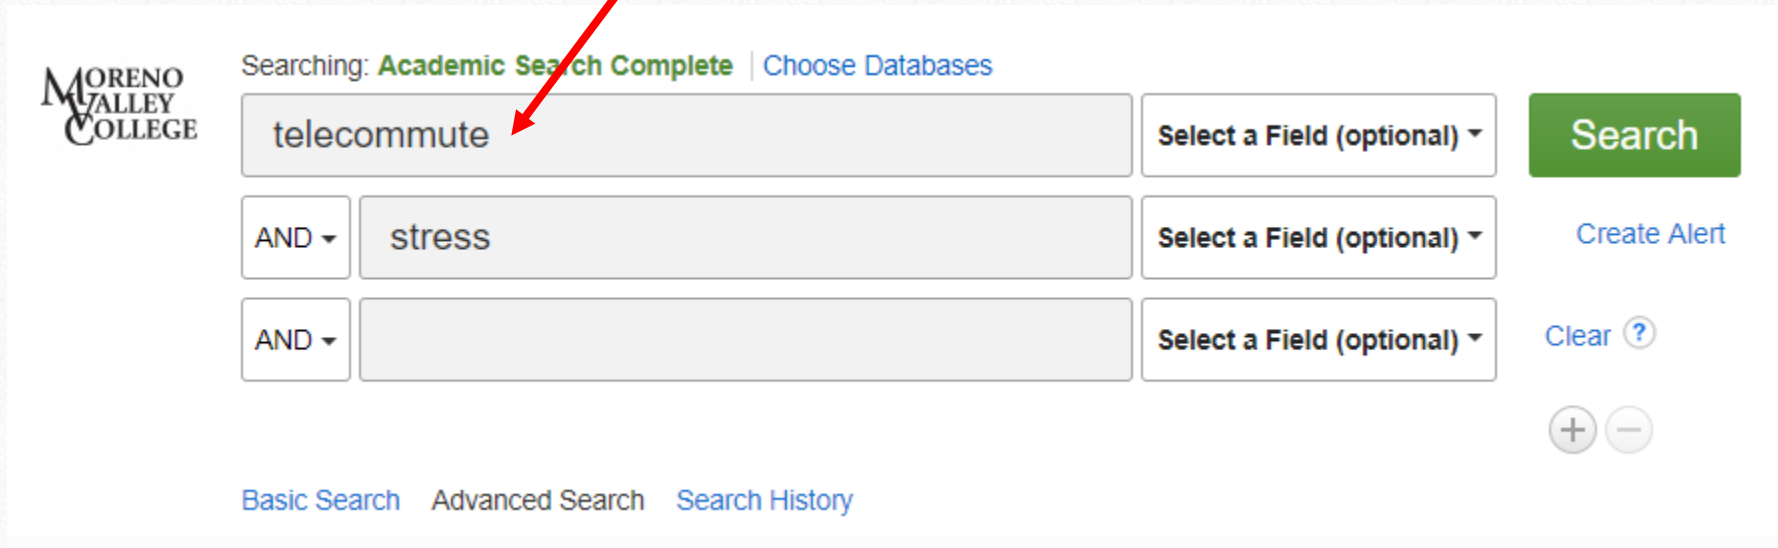

### » [America: History & Life with Full Text \(Ebsco\)](#) (S)

The definitive database of literature covering the history and culture of the United States and Canada, from prehis indexing for 1,700 journals from 1964 to present, this database is without question the most important bibliograph scholars of U.S. and Canadian history.

# Once you've logged in, you'll see the search screen.

Enter each search term in a separate box

# Additional Questions?

---

- In this workshop we've covered what a peer reviewed article is, why it's useful to use them, and how to find them using the library's resources and discovery systems.
- Are there any questions or anything else we can help with at this time?

# Workshop Tutorial

---

- This is the brief tutorial for the scholarly articles workshop that provides a certificate of completion when submitted.
- [https://mvc.libwizard.com/f/scholarly\\_articles](https://mvc.libwizard.com/f/scholarly_articles)

# How to Contact the Library

---

- **Chat:** <https://www.mvc.edu/student-support/library/index.php>
  - 24/7!!

## During Library Hours:

- **Email:** [reference@mvc.edu](mailto:reference@mvc.edu)
- **Text:** 1-951-319-7358
- **Phone:** 1- 951-571-6447
- **Zoom:** <https://www.mvc.edu/student-support/library/index.php>
